

COMPUTATIONAL SCIENCE POSTER DAY AT LSU

Friday, April 17, 2009

Open to all undergraduate students in the state of Louisiana. We invite posters on topics related to computational science, including cyberinfrastructure, basic science, computer architecture, supercomputing and its applications, and more!

There is no fee to enter, and this is an excellent opportunity to showcase research and meet with university scientists.

To participate:

Submit a brief (250-300 words) abstract that clearly states research questions/purpose, methods and expected outcomes by
Thursday, Feb. 12

For more information visit:
